

2009-2010 CURRICULUM CHECK SHEET is a guide to the requirements of this major. **It is NOT necessary to take these courses in the order given.** Please consult the online Bulletin for specific details (<http://www.lasierra.edu/academics/bulletin>).

Andrews University:

College Writing (ENGL 111, 112, 113)
Speech Course (COMM 104 OR COMM 244)
Western Intellectual Traditions (HIST 105)
Lifetime Fitness (PEAC 120)
Religion Course
Drawing (ARTS 224)
Introduction to Information Systems (CPTG 104)
College Algebra (MATH 121)
Trigonometry & Geometry (MATH 122)
General Physics (PHYS 231, 232 & Labs)
Introduction to Architecture
(to be taken at a community college)
Drawing & Graphics Studio
(to be taken at a community college)

Woodbury University:

College Writing (ENGL 111, 112, 113)
Western Intellectual Traditions (HIST 105)
College Algebra (MATH 121)
Trigonometry & Geometry (MATH 122)
Design Principles (ARTS 115)
Color for Artists & Designers (ARTS 116)
Creative Visual Thinking (ARTS 117)
Fundamentals of Speech (COMM 104)

California Polytechnic University:

College Writing (ENGL 111, 112, 113)
College Algebra (MATH 121)
Trigonometry & Geometry (MATH 122)
Fundamentals of Speech (COMM 104)
Highly recommended courses:
Design Principles (ARTS 115)
Color for Artists & Designers (ARTS 116)
Creative Visual Thinking (ARTS 117)

Andrews University:

School of Architecture
Architecture Building,
Berrien Springs, MI 49104-0200
Phone: (269) 471-6003; Fax: (269) 471-6261

Admission Requirements:
Upper division transfers must complete 90 quarter units of transferable coursework, including 45 quarter units of courses equivalent to general education requirements, with a grade of "C" or better by the end of the spring quarter to be considered for admission for fall quarter. A minimum 3.2 GPA is recommended for transfer applicants.

PRE-ARCHITECTURE

NATURE OF WORK: People need places in which to live, work, play, learn, worship, meet, govern, shop, and eat. These places may be private or public; indoors or outdoors; or rooms, buildings, or complexes, and together, they make up neighborhoods, towns, suburbs, and cities. Architects-licensed professionals trained in the art and science of building design- transform these needs into concepts and then develop the concepts into images and plans of buildings that can be constructed by others.

EDUCATIONAL QUALIFICATIONS: All states and the District of Columbia require individuals to be licensed (registered) before they can call themselves architects and contract to provide architectural services. During this time between graduation and becoming licensed, architecture school graduates generally work in the field under supervision of a licensed architect who takes legal responsibility for all work. Licensing requirements include a professional degree in architecture, a period of practical training or internship, and a passing score on all divisions of the Architect Registration Examination (ARE).

JOB OUTLOOK: Employment of architects is expected to grow faster than the average for all occupations through 2016. Besides employment growth, additional job openings will arise from the need to replace the many architects who are nearing retirement, and others who transfer to other occupations or stop working for other reasons. Internship opportunities for new architectural students are expected to be good over the next decade, but more students are graduating with architectural degrees and some competition for entry-level jobs can be anticipated.

SALARY: According to the 2009 issue Occupational Outlook Handbook, the median annual earnings of wage-and-salary architects are **\$64,150**. The middle 50 percent earn between **\$49,780** and **\$83,450**. The highest 10 percent earn more than \$104,970.
