

2009-10

Cal Grant B Access Authorization

According to State regulations, in order for *Cal Grant B Access (Subsistence)* to be credited to a student's account, La Sierra University must have the student's written authorization, which must be obtained at least once per academic year prior to disbursement and retained by the school in the recipient's records.

Without this authorization, the school must release these funds directly to the student. A student has the ability to reverse his/her authorization prior to the disbursement of funds and receive the subsistence funds directly. The student is responsible for any outstanding balance and interest charges on his/her account.

Please check one of the following options:

- [] I **authorize** the Student Financial Services Office of La Sierra University to apply my *Cal Grant B Subsistence* funds directly to my student account.
(CALSUB-A)

I understand that this authorization is valid until I rescind it *in writing*.

- [] I do not authorize the Student Financial Services Office of La Sierra University to apply my Cal Grant B Subsistence funds directly to my student account. (CALSUB-N)

I understand that I am responsible for any outstanding balances and interest charges accrued on my account.
